2. On the 17th and 18th, together with members of DD/I, DD/P and DD/S components, I participated in discussions of two wartime planning problems. The first problem concerned the requirements for wartime DD/I organizational changes, concepts of operations and other adjustments necessary to integrate the DD/I functions and personnel into CIA wartime operations. The second problem discussed was a review of the proposed revised relocation plan for CIA, and a consideration of the problems and staff action which must be taken to accomplish such relocation and to reconstitute an operating CIA Headquarters. (See attachment 1 for a list of topics of discussion.)

3. Some highlights of the discussions and suggestions which emerged from the consideration of these problems are reported below (Tab 1). The discussions were entirely exploratory.
